MONOTUBE CARTRIDGE KIT FOR TRI-GLIDE

Progressive Suspension – Monotube Cartridge Kit for Tri-Glide

True high performance front suspension is finally available for the HD Tri-Glide models (FLHTCUTG). Progressive Suspension has gone back to the drawing board and created a state of the art Fork Cartridge Kit designed to outperform everything on the market. Our new asymmetrical design places a progressive rate spring in one leg and an aluminum bodied, sealed cartridge damper on the other. The result is superior damping and ride control as a new benchmark for high performance suspension on the 2014+ Tri-Glide platform.
